

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all drugists in \$6 and \$1 bottles, but it is manufactured by the California Fig Syrup Co., whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

END OF ALL FEARS

Wall Street Is Breathing Freely Once Again.

QUICK RECOVERY IN PRICES

There Was Very Little Excitement Yesterday. Few Stocks Hold and No More Failures.

NEW YORK. May 6.—Money on call has been easy, ranging from 3 to 6 per cent, last loan at 3 per cent, and closing offered at 3 per cent.

Post rates, \$4.85 to \$4.95.

Government bonds.

After one of the most exciting weeks in the history of the stock exchange Wall street today had a much longered breathing spell. The absence of failures, the reports that certain firms who succumbed to the recent shrinkage in price will shortly resume and the favorable bank statement, all combined to restore confidence and led to a material recovery in prices. The movements were by no means regular, but there is nothing strange about this when it is considered that many firms and individuals were disposed to take advantage of the rallies in the market to place their affairs in an easier position. Hence every time a substantial recovery occurred a good many long stocks came out and reactions ensued. There was comparatively little excitement, however, and the dealings were not much above the average, aggregating only 18,002 shares for the two hours. A further reduction in sterling exchange, which renders the likelihood of gold shipments still more remote, tended to improve the feeling on the street. The most important factors, however, are the continued absorption of stocks for London account and the buying for home investors who have put in an appearance on the street for the first time in a year or more. So many stocks have been bought and paid for during the last forty eight hours that we are beginning to place ourselves in a comparatively easy condition. Of course there may be further forced liquidations next week, but the belief obtains in usually well informed quarters that the crisis has been passed. The Industrial stocks have the largest net gain today. Tobacco advanced 10 cents to \$29.25, preference 5%, Cotton Oil preferred 2%, Chicago Gas 1, Consolidated Gas 2, Electric 2%, Corioage preferred 3 and Rubber 5% points. The market closed firm in tone. The sales of listed stocks today were 161,880 and of unlisted stocks 3,680 shares.
